

Help your child graduate to Abbott's Most Advanced Formula

Here are two recommended titration methods that will help your child switch with greater ease and enjoyment.

Method 1: Volume Titration*

Weekly feeding schedule	Based on total volume of 180ml (6oz) per feed	
	Current milk brand	New Most Advanced Similac Follow-on
1 st week	120ml (4oz)	60ml (2oz)
2 nd week	60ml (2oz)	120ml (4oz)
3 rd week	0ml	180ml (6oz)

Method 2: Feeding Titration*

Weekly feeding schedule	Based on total of 4 feeds per day	
	Current milk brand	New Most Advanced Similac Follow-on
1 st week	3 feeds	1 feed
2 nd week	2 feeds	2 feeds
3 rd week	1 feed	3 feeds
4 th week	0 feed	4 feeds

*Please refer to the label on the milk can for age-appropriate feeding schedule for your child.

Infants after the age of 6 months should receive supplemental foods in addition to Similac® Follow-on formula.

New Most Advanced Similac®
For babies after 6 months
